## Magellan After School Programs

### A.E. FINLEY

The YMCA serves Magellan two ways, with programs based on-site at school and a program based at the A.E. Finley YMCA (transportation included). Students in 3-5 are eligible for on-site at the school. Students in grades 3-8 are eligible for the program based at A.E. Finley. *Spaces are limited and school or branch-based programs may not appear as an option when they are at capacity.*

At YMCA After School, kids expand their learning beyond the classroom. We use a balanced curriculum that supports learning through active play and a focus on character development and social-emotional learning. We also offer a quiet space and support for students to work on their homework Monday through Thursday afternoons.

During the week, students will participate in various enrichment activities with opportunities for skill development, physical activity and fun.

After School is held from school dismissal until 6 p.m.
